FidleFIT®

FidleFIT®

FidleFIT, is a Nutraceutical range of branded products with a Trade mark owned by Kausikh Therapeutics (P) Ltd. This is manufactured in the GMP approved facility of KTPL premises assuring highest standards being maintained to have desirable benefits. Fidlefit Nutraceutical products aims to cover a range of vitamin, minerals and supplement that can constitute to build natural immunity and wellness. Every customized formulation ensures that each ingredient strength recommended are met in line with Nutrient Reference Value or the Recommended Dietary Allowance.

FidleFIT has a wide-range of formulation that covers the need to address the challenges of underline need of dietary supplements being unmet through normal daily consumption of foods and covers all for age groups related diseases.

FidleFIT nutraceutical range of products could also be offered under the private labels as per the client requirement. To address the immediate need and in flexible quantities FidleFIT is ready to meet these demand as well in the development of private labels. Only FidleFIT offers potential customers the option of small introductory quantities customized either under FidleFit or under their own brand name.

FidleFIT products is now well poised to cater Domestic and International markets across the globe.

People, Progress, Purpose & Social Responsibility

Key Fact

Units : 2 manufacturing Sites.

Products : Capability to manufacture all dosage forms and all therapeutic categories.

Personnel : 500+ employees.

Quality Policy

Kausikh employs the best of industry's technical officials in its QC, QA, 'Production & Product' Development Department. Their continuous proactive efforts on the present.

Future needs of market are dedicated to meeting the customer requirements through consistent development of Technology, Quality, drug delivery systems, Packaging and more.

It is towards this end that the company believes in Total Quality Management.

Our Expertise

Kausikh is a technology driven company supported by widespread Formulation Development and Analytical Development departments; coupled with well-equipped laboratories and best talented technical officials of the industry.

Importance is laid on continuous improvement in process, quality and development of new products.

Our Quality Control laboratory is fully equipped for physical, chemical testing along with micro-biological testing. Kausikh has centralized R&D Unit for all the dosage forms. At the R&D centre not only the focus is on new product development but we also work on making the existing ones better.

Services

**DEVELOPMENT
CONTRACT MANUFACTURING
BRAND & PRIVATE LABEL**

Research & Development

- *Design and development of new dosage forms*
- *Pre formulation studies*
- *Lab / pilot scale studies*
- *Process optimization/validation studies*
- *Stability studies as per ICH guidance*
- *Technology transfer of new products*
- *Technical supports to manufacturing location*
- *Technology and latest development upgradation to provide technically superior, process efficient and International standards product.*

Analytical Development capabilities include

- *Development & validation of various analytical test procedures for Assay*
- *Content Uniformity, Dissolution, Related Substances, Residual Solvents, other in-house test procedures*
- *Finalization of Specifications which will adequately evaluate desire quality attributes.*

- The RDA values are mentioned based on the market standard value and is derived based on EFSA (European Food Safety Authority) and the nutrient labelling is based on Regulation (EU) No 1169/2011.

- The RDA values and the tolerable UL (Upper Limit) values, for USA are mentioned based on the reference values taken from FDA (Food and Drug Administration) and in NIH (National Institute of Health).

- If the values are not pre-defined in the above references, the values are taken based on the existing market samples and is cross-checked with UL values safe limit for consumption.
